

PROMISE ARAUNA MACHIO

Trainee Software Developer | Statistics & IT Student
+254 714 916 372 | machiopromise05@gmail.com | Nairobi, Kenya
github.com/PromiseMachio | linkedin.com/in/promise-arauna774521396

OBJECTIVE

A Bachelor of Science graduate in Statistics and Information Technology with strong skills in full-stack development, data analysis, and backend system architecture. Experienced in applying data-driven and software development approaches to build efficient, scalable, and user-focused solutions within complex environments, including regulatory and enterprise systems.

EDUCATION

Bachelor of Science – Statistics & Information Technology <i>The Co-operative University of Kenya 3rd Year (Ongoing)</i>	2023 – Present
Trainee Software Developer Certificate <i>The Power Learning Project (PLP)</i>	July – Dec 2025

TECHNICAL SKILLS

Languages & Frameworks	Databases & Tools	Competencies
JavaScript, Node.js, R Express.js, React, Socket.io	MongoDB Atlas, REST APIs Git & GitHub, JWT, CRUD	Full Stack Development Data Analysis & Visualization

KEY PROJECTS

Mcare – Full Stack Health System - Built a patient-doctor appointment platform with user authentication, admin dashboard, and secure REST API connected to MongoDB Atlas. - Implemented role-based access control for patients, doctors, and administrators.	github.com/PromiseMachio/mcare_app
Subscription Tracker – Database Architecture Designed backend database for tracking subscriptions with full CRUD operations, middleware authentication, and automated renewal reminders.	github.com/PromiseMachio/subscriptionTracker
Mchatty – Real-Time Chat Application Developed full-stack chat app using Socket.io for real-time messaging, JWT + cookie authentication, and mobile-responsive UI with light/dark mode.	github.com/PromiseMachio/subscriptionTracker/tree/master/Mchat

WORK EXPERIENCE

Data Analyst Apprentice – PromptB (Remote) - Gathered and cleaned user data from organizational databases, removing duplicates and inconsistencies. - Performed statistical analysis and data visualization using R to meet company reporting requirements. - Drafted findings report and provided actionable recommendations that supported data-driven decision-making.	Dec 2025 – Jan 2026
